Librarian : John McDonald ; *Sub-Librarian* : Miss I. Wallace.

RANKIN PUBLIC READING ROOM, 79, Whitevale Street.

Keeper : Marr Grieve.

GLASGOW

CORPORATION PUBLIC LIBRARIES.

THE Corporation Public Libraries of Glasgow are established and maintained under the powers and provisions of the Glasgow Corporation (Tramways, Libraries, etc.) Act, 1899. The clauses of that Act relating to Libraries are in general effect in agreement with those of the Public Libraries (Scotland) Acts, 1887 and 1894, except that the management of the libraries is placed in the hands of the Corporation solely.

The scheme of District Libraries adopted by the Corporation includes sixteen Libraries and two Reading Rooms. The Libraries are of three grades, the largest being placed in the most densely populated districts. First-grade Libraries are placed in Anderston, Bridgeton, Gorbals, Townhead, and Woodside. Second-grade Libraries in Hutchesontown, Dennistoun, Govanhill, Kingston, Maryhill, Parkhead, and Springburn. Third-grade Libraries in Hillhead, Kinning Park, Langside, and East Pollokshields. Sites have not yet been secured for Hillhead and Langside. The Library at Gorbals is located in the large halls attached to the Public Baths, which are rented from the Baths Committee for the purpose; for the other Libraries new buildings have been provided.

The cost of the buildings for the District Libraries has been met by the great liberality of Dr. Andrew Carnegie, who for this purpose made the munificent gift of £100,000.

Each branch library contains a lending department; a large general reading and news room, with newspapers and magazines, and an open collection of reference and other books; a reading room for women; reading rooms for boys and girls; and the necessary staff and store accommodation.

FORMATION AND USE OF THE LIBRARIES.

In the selection of the books forming the several branches of the lending department, what may be termed a principle of variation or differentiation has been observed. It is recognised that there are many books which by reason of their importance or popularity must be placed in each of the district libraries; but as far as possible definite subjects, as for example dyeing, or socialism, or electrical engineering, are represented by different books in the different

INTRODUCTION.

libraries. The same principle of variation has applied in the selection of the newspapers, magazines, and other periodicals provided for the service of the various reading and news rooms. By this means each branch library becomes complementary or supplementary to all the others, and the total range of literature thus made available for the service of readers is largely increased.

In order to render the collections thus formed as easily and generally accessible as possible, all persons who qualify as borrowers under the Rules are at liberty to draw books from any branch, though not from two at the same time. At each library the catalogues of all the others, as far as published, are available for consultation, and the student who has exhausted the resources of the library he usually visits is able to see there what books in his subject may be had from the other branch libraries. As a further convenience to borrowers, there has been instituted a daily exchange service between all the branch libraries and a central point, by means of which any borrower is enabled to have books (other than novels) sent from any branch library to the library nearest his home, from which they are issued in the usual way.

HUTCHESONTOWN DISTRICT LIBRARY.

The Hutchesontown District Library occupies a site in M'Neil Street, quite near to Rutherglen Road. It has a frontage of 90 feet and a depth of 71 feet. The main entrance, which is centrally situated, gives access to the General Reading Room (61 feet by 33 feet), the Ladies' Reading Room (28 feet by 21 feet), and the Lending Department (50 feet by 35 feet). The Juvenile Rooms, for which a separate entrance is provided, occupy the upper floor, and accommodate 96 boys and 62 girls. The building has been erected from designs by Mr. James R. Rhind, architect.

The reading matter provided in the Reading Rooms consists of 38 daily and weekly newspapers, 44 weekly periodicals, and 32 monthly and quarterly magazines, along with a collection of 400 volumes of reference and other books in open book-cases for use in the rooms only. The Juvenile Reading Rooms are provided with a stock of books suitable for the use of boys and girls. In the Lending Department there is accommodation for 20,000 volumes, and the present stock consists of 9,000 volumes.

As the result of a gift of £25 by Alexander Lamberton, Esq., of Messrs. John Gray & Co., Ltd., Adelphi Street, the collection of books on technical subjects relating to the local industries has been materially strengthened. A further gift of scientific works was received from J. W. Woyka, Esq., of 241 Govan Street.

GLASGOW PUBLIC LIBRARIES.

THE CATALOGUE.

The alphabetical form of catalogue has been adopted, as being that which, on the whole, is best qualified to satisfy the requirements and meet the convenience of the borrowers, and to make the resources of the Library readily accessible to them. In consulting a catalogue of a library the reader desires to ascertain if a certain work by a given author is in the library, or what works of that author are there; or he wishes to find a particular book on some given subject, or what works on that subject are available; or he is looking for a book bearing some given title. To meet these questions the books in the Library are in this catalogue entered under the names of their authors (in SMALL CAPITALS), under the subjects with which they deal (in *clarendon* type), and under their titles (in ordinary type). All these entries are arranged in one alphabetical sequence, so that the reader who is looking for a book by a given author, or on a given subject, or bearing a given title, will at once find the entry of it, if it be in the library. For readers who desire to survey as a whole any one of the larger classes or groups of related subjects, there is provided the means described under the heading "Classification" in a subsequent paragraph.

In the case of authors who are known by more than one name, the name entered is that which is thought to be the one most generally known and used (BARONESS ORCZY, not MRS. MONTAGU BARSTOW; ELLEN T. FOWLER, not MRS. ALFRED L. FELKIN). In a few cases, however, where a well-known name has been replaced by a title or other later form, which is coming into general use, the latter has been used, as LORD AVEBURY, not SIR JOHN LUBBOCK. References have been inserted where it appeared to be necessary, but the preparation of a full reference list of pseudonyms and alternative forms of names, which will be applicable to the catalogues of all the district libraries, is held over for separate issue, together with other matters common to all the catalogues. Similarly, the words chosen as subject-headings are those in most general use, references being made here also when thought necessary.

CLASSIFICATION.—In order to link together allied or related subjects, and so in some degree to combine the convenience of reference secured by the alphabetical arrangement with the advantages pertaining to the classified form of catalogue, two methods have been adopted. In the first place a tentative *system of references* has been introduced in the body of the catalogue. At the larger subject-headings, representing or covering one or other of the main departments of literature, after the titles of the books relating to that subject, there is entered a list of subordinate or subsidiary subject-headings connected with it, and consequently

INTRODUCTION.

more or less closely related to each other; and at each of these subject-headings there is a reference back to the main heading "for related subjects." An example will explain. At the heading **Arts, Useful**, there is a list of subordinate headings, representing different departments or divisions of useful arts. One of these is **Chemical technology**, and at that entry will be found a reference back to **Arts, Useful**, for a list of related subjects. After the titles of the books on chemical technology, there is further a list of subjects included within that branch of useful arts, one of which subjects is **Food**. Accordingly, at **Food** will be found a reference back to **Chemical technology** for a list of related subjects, and, as before, a reference forward to sub-headings under **Food**, as for instance **Sugar**. Briefly, the references are back to the superior heading for guidance to related subjects, and forward to the subordinate or divisional headings.

The other method referred to consists in the preparation of a list of the **subject-headings** which occur in alphabetical order throughout the catalogue, *but arranged in a classified or methodical order*. Under the main heading **Sociology**, for instance, will be found the headings which constitute the divisions and sub-divisions of that important department of literature. Together, this table and the system of references, will enable any reader who desires to do so to find what the library contains in the various departments of any of the larger divisions of literature. It should be stated that geographical subject-headings (names of countries, provinces, counties, towns, etc.) are not referred in the body of the catalogue, but they will be found classified in the table. See pages xxv-xxviii.

BRIEF ANNOTATION.—In many cases where the title-page of a book fails to indicate the character and scope of the work, brief explanatory notes have been added, sometimes in square brackets in the title, and sometimes by a line of small type below.

DATES OF PUBLICATION have (except in the case of novels) been inserted where space permitted. It may be taken that undated books are with few exceptions of recent issue.

CONTENTS AND ANALYSIS.—The contents of collected editions of an author's works, volumes of essays, etc., have been set out; and the several essays and works contained in them entered in their places in the catalogue under the appropriate headings, with an indication that the essay or other matter is contained *In* the work named. By this means the catalogue becomes to a considerable extent an index to many works of a collectaneous character, and much matter is brought to the knowledge of readers which would not otherwise appear. For instance, of the twelve titles quoted under the subject-heading **Ethics**, seven

GLASGOW PUBLIC LIBRARIES.

are of volumes wholly devoted to that subject, the other five being chapters in volumes of a more general kind.

The abbreviations *ill.*, *maps*, *port.*, *mem.*, *bibl.*, following many titles mean respectively that the book so marked contains illustrations, or maps, or a portrait or memoir of the person whose name is the first word of the entry, or a bibliography. This last feature will be found useful; it means that the book to which it is appended contains a list of works relating to the subject indicated by the heading, or to the person whose name commences the line.

NUMBERING.—A system of numbering has been adopted which secures a fairly close classification of the books on the shelves, and at the same time serves all library purposes save that of accession number only. Fiction, poetical works, and essays by individual authors, and individual biography, have numbers composed of letters and figures, the letter being the initial of the author in the three first-named, and of the subject in biography. In fiction the letter is placed between figures, in biography before figures, and in poetry after figures; the marking for essays is the same as for fiction, with the letter **E** prefixed. All other books (except volumes of periodicals) have a number which is both a classification and a book number. It consists of five figures, of which the first three are, with some departures, the leading figures in Mr. Melvil Dewey's "Decimal classification," and the last two the number of the book within that group.

A complete list of writers of works of fiction in the catalogue will be found under the heading "**Fiction**" (p. 116); of poetical works under "**Poetry**" (p. 273); of dramatic works under "**Drama**" (p. 96); of essay writers under "**Essays**" (p. 109); and of writers of sermons under "**Sermons**" (p. 311). On p. 383 will be found lists of writers in languages other than English.

GLASGOW CORPORATION PUBLIC LIBRARIES.

BYE-LAWS AND REGULATIONS FOR THE MANAGEMENT OF THE DISTRICT LIBRARIES.

1. In these Bye-laws the word "Library" shall mean any and every District Public Library or Reading Room under the control or management of the Corporation of Glasgow, and the rooms, passages, and other adjuncts thereof; the expression "The Librarian" shall include the City Librarian and his Assistants; and the word "Book" shall include newspapers, periodicals, pictures, maps, and other matter of a similar nature; and such words as indicate the singular shall include the plural, and the plural the singular, and those indicating males include females.

2. The City Librarian shall have the general charge of the Libraries, and shall be responsible for the safe keeping of the books and all other property belonging thereto.

3. The Libraries shall be open to the public free of charge on such days and during such hours as the Corporation, or the Committee appointed by them for the management of the Libraries, may from time to time direct; and the Corporation or Committee shall have power to close any one or all of the Libraries wholly or partially during such time as they may think fit. The Librarian may exclude persons whose conduct or condition is in contravention of these Bye-laws; but persons so excluded may appeal to the Committee on Libraries.

4. No person who is intoxicated, uncleanly in person or clothing, or who is suffering from an infectious or offensive disease, shall enter or be allowed to remain in any Library. No audible conversation shall be permitted in any Reading Room, nor shall any person partake of refreshments, whistle, smoke, spit, or sleep therein, or bring in any animal, or any cycle, or other cumbrous or inconvenient article; and no person shall interfere with the arrangements for conducting any Library, or with the comfort of any readers therein, or use the Library for any purposes other than those for which it is intended.

5. No person shall take any book from any book-case or shelf of a Library, except from the open shelves; or remove any book or other article from a Reading Room; or pass within any barrier or enclosure unless by special permission of the Librarian. The admission of persons under fourteen years of age to any Reading Room shall be in the discretion of the Committee on Libraries or the Librarian.

6. Books may be borrowed from the Lending Departments by Rate-payers of the City of Glasgow, and by other persons over fourteen years of age who reside or who are employed within the municipal boundaries. Persons desiring to become Borrowers must apply for and fill up the forms provided for the purpose, which contain an undertaking to conform to these Bye-laws and Regulations, and a guarantee to make

GLASGOW PUBLIC LIBRARIES.

good any loss or damage occurring to books while in their possession. Ratepayers may sign the guarantee in their own behalf; Non-ratepayers must obtain the guarantee of a Ratepayer. Persons from eight to fourteen years of age may borrow books from the Juvenile Departments on obtaining the necessary guarantee. Any person otherwise qualified, who does not furnish the guarantee of a Ratepayer, may obtain a Borrower's ticket on leaving with the Librarian a deposit of Ten Shillings, which will be held during the currency of the ticket as security for the return in good condition of books borrowed, and for the payment of any fines incurred. All tickets and guarantees shall be valid for two years from the date of issue, unless previously surrendered or cancelled.

7. Any Ratepayer who has become Guarantor for a Borrower, and desires to withdraw his guarantee, shall give notice thereof in writing to the Librarian, who shall grant a release as soon as he shall have ascertained that no liability exists in connection with the said Borrower.

8. The Borrower must produce his Library ticket each time application is made for a book, and each time a book is returned to the Library.

9. A Borrower shall have the use of only one ticket, upon which only one work may be issued at a time. Books may be borrowed from and returned to any Lending Library; and on filling in and lodging a special request form at any Library, a book (other than fiction and books for juveniles) may be had from another Library on the following or second day, provided the book is not at the time in the hands of another Borrower.

10. Borrowers are cautioned against transferring or losing their tickets, as they and their Guarantors will be held responsible for all books borrowed from any Library on such tickets; on ceasing to use a ticket, the Borrower must return the same to the Library to which it belongs, for cancellation. Changes of residence must be intimated, in writing, within one week to the Librarian.

11. Books borrowed shall be returned to a Library within ten days. If not so returned, a fine of one penny shall be paid by the Borrower for the first week or portion of a week following; and if not returned within one week after the expiry of the original ten days, a further fine of one half-penny shall be paid for each day the book is longer detained. A loan may be renewed if the book be not required by any other Borrower.

12. If a Borrower fails to return a book within four weeks from the date of issue without having renewed his right to it in the interval, the Librarian shall request its immediate return, by post-card, letter, or otherwise, and the fines for non-return and the cost of recovery of the book shall be payable by the Borrower or his Guarantor.

13. Borrowers and Readers are required to protect the books from injury while in their possession. They shall not soil any book, nor cut or tear any of its leaves, maps, pictures, or any other part, or turn down corners, or write or make any mark on any part of the book, or otherwise damage it or its binding. They shall not remove or erase or otherwise interfere with any official number, date, or other mark upon the book or its labels. In wet weather, Borrowers must protect books from wetting during conveyance to or from the Library. In the event of any book being lost or injured the Reader, or the Borrower or

BYE-LAWS AND REGULATIONS.

his Guarantor will, in addition to the fines for non-return, be required to pay a sum sufficient to repair or replace the book.

14. Books shall be borrowed and returned only by Borrowers in person or by responsible messengers, who shall be competent to take due care of the books and tickets. The Librarian shall have power to refuse books to persons whom he considers unfit to take proper care of them.

15. Borrowers must examine their books as early as possible after receiving them, so that if they are imperfect or damaged the same may be reported to the Librarian at once. Otherwise they shall be responsible for the said imperfection or damage.

16. Borrowers may propose books for addition to the Libraries, or make other suggestions, on forms provided for this purpose at each Library, which shall be submitted to the Committee on Libraries for their consideration. All proposals or suggestions must be signed and address stated by the proposer.

17. Borrowers in whose homes there is any infectious disease must deliver books and tickets in their possession to the Sanitary Authority of the City, and must make no further use of the Libraries until the house has been declared free from infection. Any Borrower who neglects to comply with this regulation shall lose the use of his Library ticket, and shall not be allowed to borrow books again without the consent of the Committee on Libraries.

18. The books on the "Open Shelves" in the Reading Rooms shall be available, without written application, but for use in these Rooms only.

19. Persons reading any magazine or other periodical must surrender the same within fifteen minutes after it has been asked for by another reader.

20. Any person contravening or offending against the foregoing Bye-laws and Regulations may be excluded or removed from the Library by the Librarian or by any police constable instructed by him for such purpose, and such person shall also be liable to the statutory penalties provided for under the Glasgow Corporation (Tramways, Libraries, etc.) Act, 1899.

Signed in name and by appointment of the Corporation, this
Twenty-first day of November, Nineteen hundred and one.

(Signed) SAMUEL CHISHOLM, Lord Provost.

„ WILLIAM FIFE, Convener.

„ J. D. MARWICK, Town Clerk.

Glasgow, 10th January, 1902. I allow and confirm the fore-
going Bye-laws.

(Signed) ROBERT BERRY, Sheriff of Lanarkshire.

L.S.

A FEW WORDS TO BORROWERS ON THE USE AND TREATMENT OF BOOKS.

IN connection with the system of lending out books from the Public Libraries for home reading, a few words as to the manner and spirit in which the books should be used may be permitted, and may in some cases be useful. It frequently happens that books suffer much injury from want of thought and want of care, without any ill intention on the part of the person through whom such injury occurs.

It may be pointed out that the books in the Libraries are the property of the citizens, and that it is altogether in the interest of the borrowers themselves that each one of them should avoid any practice calculated to diminish the usefulness of the books. With careful and considerate treatment a book will last far longer, and serve a much greater number of readers, than if exposed to careless or reckless usage.

Great care should be taken to avoid soiling the books. The hands should be washed before reading, *and even then the very bad though very prevalent habit of wetting finger or thumb to turn the leaf should be avoided.* If the book be read at meal times every precaution should be taken to prevent its being in any way soiled or marked, and it should be kept well away from food or cups or glasses. When the book is not in use it should be kept in a secure place provided for it, out of the reach of young children. It is an excellent plan to keep a wrapper of clean paper about the book during the time it is in the borrower's possession.

The place of reading should be marked by the insertion of a piece of clean paper as a book mark, *not* by turning down the corner or fore-edge of the leaf or by putting in any bulky article, as pencils, scissors, etc.

No writing or other marking of any kind is permitted on any book belonging to the Libraries; nor any cutting, tearing, or other injury to a book or any part of it. In wet weather the books must be protected by a covering during carriage from and to the Library.

It is requested that any injury or imperfection in any book be immediately pointed out by the borrower to whom the book is issued.

Should infectious disease occur in houses where there are Library books, the book or books and Borrower's ticket must not be returned to the Library, but handed over to any Officer of the Sanitary Authority of the City for disinfection or destruction. A similar course should be followed in the case of books which have been in the hands of persons suffering from consumption.

CLASSIFICATION.

CLASSIFICATION.

TABLE OF SUBJECT-HEADINGS.

In the catalogue, the various subject-headings, whether general or specific, occur at their places in alphabetical sequence. The classified or methodical arrangement of the same subject-headings contained in the pages immediately following has been prepared for the convenience of students and readers who may desire to refer to all the entries belonging to one or other of the larger departments of literature, so far as represented in this library. Under the heading Sociology, for instance, are assembled all the subsidiary headings belonging to that class, arranged in related groups and sections; so that the student of Sociology is enabled, by referring to these headings and the body of the catalogue, to ascertain what the library possesses in that department of knowledge or of speculation. The scheme of classification used in this table, as also in the numbering of the books, is (with some departures) the "decimal" classification devised by Mr. Melvil Dewey of New York now very largely used by libraries in many parts of the world.

The words in the table marked with an asterisk (*) are not themselves subject-headings, but are inserted to give the necessary connexion between preceding and following headings.

Books for the Blind.—After full and careful consideration, the Library Committee decided that the provision of books for the use of blind persons could be made better through the agency of the Mission to the Outdoor Blind than by placing the books in the various District Libraries. By the authority of the Corporation, the Committee devoted the sum of £200 for the purchase of books in the Braille and Moon types, and have placed some 1250 volumes in the library of the Mission for circulation among the blind.

GLASGOW PUBLIC LIBRARIES.

DIRECTIONS TO BORROWERS.

The Library is open for the issue and return of Books daily, from 11 a.m. till 8.30 p.m.

The Borrower's Ticket must be presented both on application being made for a book and also on the return of the book.

All books returned are to be handed in at the Return Counter, when the entry of the issue on the Borrower's Ticket will be cancelled with an official stamp, and the ticket returned to the borrower, who may then apply for another book.

Should the books desired not be novels, it is requested that the borrower will hand in at the Issue Counter, together with his ticket, a list of say a dozen books (number and brief title), in the order in which they are required. The first number on the list found to be in will be issued to the borrower.

Should the book desired be a novel, the borrower will consult the Fiction Indicator, the numbers in which run in the order of the letters and figures. All numbers underlined white are *In*. Having found a desired number marked with the white line, the borrower will ask for it at the Issue Counter, at the same time handing in his Borrower's Ticket. The number of the book will be entered on the ticket, and the date on or before which, according to the Bye-Laws and Regulations, the book should be returned to the Library, will be stamped on a label inside the book. Book and ticket are then handed to the borrower.

All fines for undue detention of books, and any charge for damage, must be paid when the book is returned. Otherwise the Borrower's Ticket will be retained.
